EXPERIENCE

Head Of Product

Weave

07/2022 - Present Lehi, UT

Weave is a vertical SaaS company serving healthcare verticals with solutions in VoIP, SMS, scheduling, digital forms and payments. Generative and agentic AI is woven throughout the product and customer experience.

- Oversee the Product Management function and team consisting of ~20 members
- Up leveled the product team including leadership (Director, GPM)
- Established clear 3+ year Product Vision and Strategy and evangelized to internal teams and the board
- Assisted in driving ARR from $116m to $204m over 2 years
- Increased TAM by ~500k healthcare providers
- Launched AI product and achieved $2.5m within 12 months

Head Of Product

Via

05/2021 - 07/2022 Lehi, UT

Via is a SaaS company that offered SMS marketing and a drag-n-drop mobile app building solution for Shopify and BigCommerce brands. As the founding Product member, I joined just prior to the company's Series A and took over product responsibilities from the Co-founder and CEO.

- Joined at $3.5m ARR and drove to $12m ARR within 14 months
- Built a product and design team of 8 members
- Doubled the customer base while also doubling the net revenue per customer

Head Of Product

SR Health

08/2018 - 04/2021 Lehi, UT

SR Health is a SaaS company focused on Patient Engagement focused on large hospitals and health systems. Solutions include video chat, SMS inbox, payments, online scheduling and digital forms. Player coach role that build a team of 9 direct reports between Product Managers and Product Designers.

- Led 0-1 product build
- Built Product and Design team
- Onboarded 100+ customers within first 15 months post launch
- Achieved $4.5m+ ARR within first year post launch

Group Product Manager

Overstock.com

12/2016 - 04/2018 Midvale, UT

Reported to Merchandising and optimized the user journey for the furniture buying persona. Player coach role with IC responsibilities and 2 PM reports.

- Drove $100m+ of additional revenue from back order functionality within the first year of launch
- Implemented platform to create and manage private label brands
- Increased product detail page conversion by 60 basis points and reduced furniture returns by 6% through fabric swatch program

INTERESTS

- **Relationships (Family & Friends)**
- **Outdoors & Traveling**
- **Home Renovations**
- **Building Products**

EDUCATION

BS in Marketing; BS in IS

University of Utah

08/2007 - 05/2010

MBA

University of Utah

08/2012 - 07/2014

PRODUCT PHILOSOPHIES

- Perfect is the enemy of good
- Less but better
- Outcomes over outputs
- Missionaries not mercenaries

SIDE HUSTLE

Invoice Factoring

01/2025 - Present

Leveraging AI tools (Vercel V0, Cursor, A0.dev, Supabase) to build a crowdfunded factoring application.

FlightsFromHome (Acq'd)

09/2016 - 04/2018

Co-Founder - FFH started as an IG for flight deals. My wife and I added a subscription model and other revenue streams to sell the company.

MUVER

01/2014 - 03/2016

Co-Founder - Sharing economy iOS app for hauling items. Included both the driver or pickup owner side and the consumer side.

EXPERIENCE

Sr. Product Manager

Health Catalyst (Formerly Medicity)

10/2014 - 06/2016 SLC, UT

Medicity is a health tech company focused on aggregating patient data across systems. I owned the flagship interoperability product for HIE (health information exchange) customers.

Sr. Product Manager (Mobile)

Overstock.com

11/2012 - 05/2014 Midvale, UT

Responsible for all things mobile. This included four dev teams (native iOS & Android apps [mobile and tablet], a mobile responsive web team, and a web services team).

- Achieved award-winning app status for both platforms
- Launched the company's first Android app (entailed determining key features and JTBD for mobile users)
- Tripled total app downloads and more than doubled the MAUs
- App shoppers had higher average order size ($215 compared to $180)
- More than 5% of total revenue came through apps despite app visits being less than 2% of total traffic

Product Manager

Overstock.com

10/2009 - 11/2012 Midvale, UT

Initially focused on internal applications for the marketing department as well as integrating third party solutions and built content management system. Eventually took on website responsibilities and owned the product details page (PDP).

- Increased PDP conversion rate by 60-115 basis points, depending on category, by updating product images (quantity, quality and viewing experience)
- Increased conversation rate by 30-40 basis points by overhauling the reviews experience + adding support for user generated images
- Increased conversation rate by 20+ basis points by adding question and answer functionality

OTHER HIGHLIGHTS

Co-Author of Patent

Banjo

08/2018

US10555139B1 - US patent to derive location based on image recognition and text analysis.

Adobe Digital Summit

Overstock.com

03/2012

Presentation Panelist - Participated in a panel of experts for Adobe's imagery and testing products (Scene7 and Test & Target).

CONSULTING

Banjo

2018

Joined Banjo to help expand product market fit. Banjo had a product offering for customers in the news/media business, but expanded into the Government sector based on product evolution which I led.

Solutionreach

2016

Solutionreach is a patient engagement SaaS company and prior to me had never built out product or design functions. I consulted the then new VP of Product to establish best practice processes and recruit the initial product and design team.
